# Mines and Mining Stocks | Financial and Commercial

### Another Mine at Park City Is Beginning to Show Itself.

there is a shipment of several tons now in the ore bins awaiting harring to the samplers. Ore has been opened up in several places, and in fact it seems to be all ore. The main question now is to get the mine in such shape that the material already in sight can be readily removed and shipped.

So great is the faith of the management in the property that they have gone to the expense of buying a mill for the property, and the machinery from the old Loring mill, formerly in operation in Woodside canyon just below the King, is being taken out and prepared for removal to the Jupiter as fast as possible.

Considerable money has been expended on this property in years gone by, and it now looks as though those interested were going to get their capital back, many times manifolded. Manager Lawrence is at present devoting most of his time to getting things in readiness for the mill, looking after the removal of the machinery, etc., but at the same time work at the mine goes steadily on, and ore is being extracted daily.

## EXCHANGE ON ITS EAR.

### Members, Through President, Take Exceptions to Adv. Wording.

In a communication to the Salt Lake Stock & Mining exchange yesterday morning President James A. Pollock called attention to the wording of an advertisement for a mining company, in which the statement was made that members of the exchange would execute orders for the stock and recommend the purchase of it. President Pollock urged that the statement was unauthorzed by either official or individual action of the members, and characterize if as an inexcusable presumption on the part of the advertisers. The communication asked that the members signify their approval of the sentiment expressed and that publicity be given the fact that "the Salt Lake Stock & Mining exchange in no wise permits the use of its name for private gain."

The communication was treated as a resolution and adopted without opposition or comment.

WHO MADE THIS OFFER?

## Salt Lake Syndicate Reported After Cherry Creek Property.

Blaine Gray, a well-known young electrician of Reno, a graduate of Nevada University, received word from Cherry Creek, White Pine county, yesterday, that a mine in which he and his mother own a half interest has attracted the attention

There never was a better kind of paint made than M. & P. especially for this climate. Hence we say "It's climatically

PARK MINING NOTES.

# (Park Record.)

(Park Record.)

The boilers for the new steam plant at the Nelson property in the Elkhorn district have been taken over, and with the remainder of the plant's machinery will be installed in the near future.

Work at the Uintah-Treasure Hill property is going on steadily, and the ground is opening up in a very encouraging manner. Six men are employed and in the near future interesting news is expected from this section of country.

Mr. Davis, the inventor of the Daly-Calyx core drill, and head of a large manufacturing firm which makes these machines, has been given the contract for developing the West Quincy ground for about three months, with the aid of his drills, which are now being installed at about three months, with the aid of his drills, which are now being installed at the mine. Mr. Davis is a man of long and varied experience in this sort of work, and he feels confident that the trial at the West Quincy is going to prove entire-

Silver. 65c per ounce.
Copper (casting). 18½c per round.
Lead, \$5.75 per 100 pounds.

100 American DeForest Wireless stock for sale at \$2.00. Will be glad to receive bid, as it must be sold at once. This stock is transferable. E. M. West 2. Co., tel. 165. 337 D. F. Walker block.

See the champion is startling news from the St. Louis-Magnolia, but work is going steadily ahead and the management is not saying much. Every one in camp, however, is more or less acquainted with the section of country in which this property is located, and no one doubts that another big bonanza is to be added to the camp's ever-growing west Second South. See the champion high diver at Saltair this afternoon and evening.

Get in on the big prize list. Real Estate day at Saltair, June 28.

Tickets are 25c each, for sale by all members of the association and at 15 N. Y. Central 2,700 West Second South.

there are so many opportunities to make money in Nevada that he could not content himself to be tied down to the running of a mine.

When our soldiers went to Cuba and I the Philippines, health was the most important consideration. Willis T. Morgan, retired commissary sergeant, U. S. A., of rural route 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and, being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughts, colds, bronchial troubles and all lung diseases. Guarantee at Z. C. M. I. drug department; price 50c and \$1.00. Trial bottle

last night to look after company matters at that camp.

George E. Gunn, general manager of the Cumberland-Ely company's mines at Ely, Nev., is over from camp again on one of his periodical business trips. He reports everything moving lovely at the mines, where a large amount of telling development work is being done.

General Manager George H. Dern of the Consolidated Mercur pulled out for the east yesterday to be at the annual meeting of the company in Jersey City on July 2d. He will stop off at Fremont, Neb., where he will be joined by Mrs. Dern. who will accompany him east and help make Mr. Dern's vacation a pleasant one. Several weeks will be spent in the east-crn cities before Mr. and Mrs. Dern re-

who will accompany him east and help make Mr. Dern's vacation a pleasant one. Several weeks will be spent in the eastern cities before Mr. and Mrs. Dern return to Salt Like.

The Utah section of the Western Association of Chemists and Metallurgists, organized here a couple of months ago, hold meetings at the Commercial club the first Friday night in each month. At the meeting on July 6th the metallurgy of zinc is to be discussed and the association extends a cordial invitation to every metallurgist and chemist in this section to be present, whether affiliated with the association or not.

Frank B. Work, who recently gave up the management of the Hannapah company's properties in Nevada in order to look after personal business, left for San Francisco yesterday. On his return from there he will go to Hannapah and see how the installation of the new machinery is progressing. Simply as an interested director in the company, and then settle down at Tonopah, where he has already opened offices. Mr Work says there are so many opportunities to make money in Nevada that he could not content himself to be tied down to the running of a mine.

Several weeks will do do with the down with increased prospects to sell. Sterling exchange continued to decline with increased prospects of government and cevery metallurgists, or government from the association or not.

Frank B. Work, who recently gave up the management of the Hannapah company is properties in Nevada in order to look after personal business, left for San Francisco banks, which is intended. A meeting of St. Paul directors without taking any action on the expected prospects banks, which is intended. A meeting of St. Paul directors without taking any action on the expected prospective for single properties in Nevada in order to look after personal business, left for San Evantable properties in Nevada in order to look after personal business, left for San San Evan Francisco banks, which is intended. A meeting of the weak in the last hour with closing prices without takin

## Metal Markets.

## Treasury Statement.

Washington, June 27.—Today's statement of the treasury balances in the general fund shows: Available cash balance, \$171.995.065; gold coin and bulhon, \$89,884,-967; gold certificates, \$49,046,080.

Butter and Eggs. New York, June 27.-Butter and eggs unchanged.

Chicago, June 27.—On the produce exchange today the butter market was steady; creameries, 15@29; dairies, 14½@18. Eggs—Steady at mark; cases included, 12@15; firsts, 15; prime firsts, 16; exras, 18. Cheese—Steady; 101/2@111/2.

## Coffee and Sugar.

New York, June 27.—Coffee—Spot Rio steady; No. 7 invoice, 7%; mild steady. The markst for coffee futures closed easy it a net decline of 5 points. Sales were eported of 70,250 bags, including June at leported of 0,250 bags, including Julie at 6,25; July, 6,20; September, 6,35@6,40; December, 6,60; January, 6,70; March, 6,85; April, 6,95; May, 7,00.
Sugar—Raw, firm; fair refining, 3 1-16@1%; centrifugal, .96 test, 3 9-16@3%; moasses sugar, 2 13-16@2%. Refined steady.

## GRAIN AND PROVISIONS.

Chicago, June 27.—Wet weather in the northwest caused strength today in the local wheat market, the September option closing with a net gain of %. Corn was up %, oats were ½0% higher and provisions 2½ lower. tion closing with a net gain of \$\frac{4}{5}\$. Corn by was up \$\frac{7}{5}\$, oats were \$\frac{1}{2}\empty{0}\text{%}\$ higher and provisions \$\frac{2}{1}\text{ lower.}\$

With the exception of slight weakness about the middle of the session, the wheat market was firm all day. Advices from the northwest caused considerable anxiety among shorts, the report stating that the spring wheat crop in some sections is beginning to suffer from excessive rain. From points in Minnesota came reports of red rust and it was said that unless the weather soon cleared much damage would be caused. These reports were given more credence because duth at unless the weather soon cleared much damage would be caused. These reports were given more credence because of the fact that commission houses with northwestern connections were liberal purchasers of wheat in the local market. A strong market at Liverpool also stimulated the local demand. Prices eased off somewhat at the end of the first hour op rofit taking but the market quickly rallied and held firm until the close. September opened unchanged to ½ higher; at \$\frac{1}{5}\text{ to \$\frac{3}{5}\text{ to \$\frac{3}{5}\text{ to \$\frac{3}{5}\text{ to \$\frac{3}{5}\text{ to to the highest of the daw from longs. The market closed strong with prices close to the highest of the day. September opened % to \$\frac{4}{9}\text{ higher}\$ higher of New York, New York, and get the particulars.
